REDEFINING LAW AND JUSTICE IN THE AGE OF AI

GOOGLE GEMINI INTRODUCES DOUBLE-CHECK FEATURE: A STEP TOWARDS MORE TRANSPARENT AI PRACTICES

Google has introduced the Gemini Double-Check feature for its AI chatbot, enhancing transparency and accuracy. Users can verify AI-generated responses using Google Search, with color-coded highlights indicating the reliability of the information. This feature boosts trust in AI by promoting critical engagement and fact-checking, addressing the issue of misinformation. The tech community has praised this initiative, viewing it as a significant step towards more accountable AI practices. (16 July, 2024)

MAHARASHTRA POLICE UNVEILS AI-POWERED CRIME FIGHTING FORCE: MARVEL

The Maharashtra Police have launched MARVEL (Maharashtra's Advanced and Revolutionary Vigilance and Enforcement Learning), an AI-powered system designed to enhance crime prevention and public safety. With a ₹23 crore budget, MARVEL integrates machine learning, data analytics, and real-time surveillance to provide predictive capabilities and actionable insights for law enforcement. The initiative, developed in partnership with IIM Nagpur and Pinaca Technologies, aims to reduce crime rates and improve policing efficiency. However, challenges such as data privacy and the adaptation of police personnel remain. (18 July, 2024)

TECH GIANTS AND INDIA AI STARTUP FORMS COALITION: INDIA'S BIG STEP TOWARDS RESPONSIBLE AI IN INDIA

Tech giants and Indian AI startups have formed the Coalition for Responsible Evolution of AI (CoRE-AI) to promote ethical AI practices in India. Key members include Google, Microsoft, Infosys, and IIM Bangalore. CoRE-AI aims to establish public trust in AI through guidelines addressing bias, fairness, transparency, and privacy. Supported by the Indian government, the coalition seeks to foster innovation while ensuring responsible AI use. This initiative aligns with India's AI mission, emphasizing a principles-based regulatory approach. (23 July, 2024)

52% INCREASE IN THE BUDGET 2024 ALLOCATION FOR MEITY- 551.75 crore for IndiaAI Mission

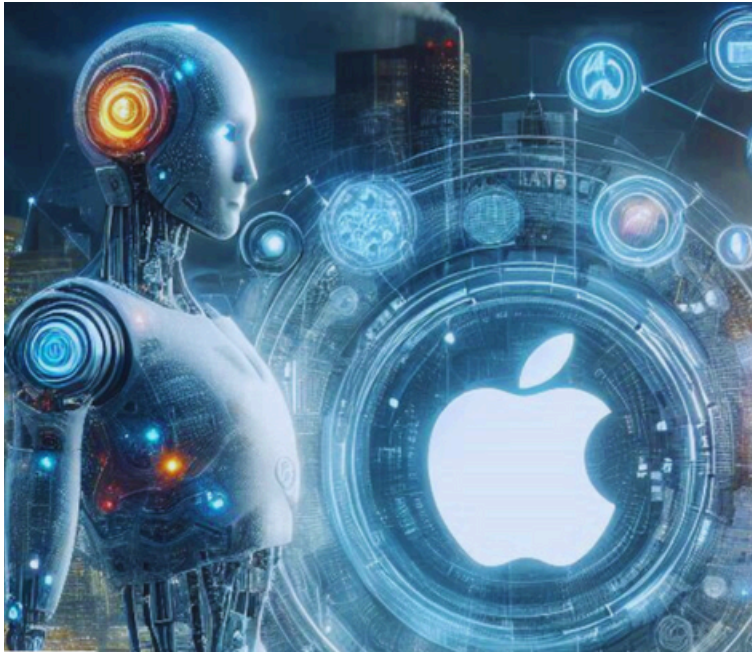

The Union Budget 2024-25 has increased the allocation for the Ministry of Electronics and Information Technology (MeitY) by 52%, reaching Rs 21,936.9 crore. Significant investments include Rs 6,903 crore for semiconductor and display manufacturing, Rs 551.75 crore for the IndiaAI mission, and increased funds for production-linked incentive schemes. These measures aim to foster innovation, enhance technological self-reliance, and establish India as a key player in the global tech landscape. However, certain schemes like rural digital literacy have not received funding. (24 July, 2024) [Click here to access the News Blog](#)

APPLE JOINS ETHICAL AI REVOLUTION: A New Era of Accountability and Safety

Apple has joined a U.S. government initiative led by the Biden-Harris Administration to promote responsible AI development. This initiative focuses on AI safety, security, transparency, privacy, and international standards. Apple's participation underscores its commitment to ethical AI practices, aligning with its long-standing emphasis on user privacy. This move sets a precedent for other tech companies, encouraging greater accountability and collaboration with the government to address AI challenges and ensure its safe and responsible use. AMERICAN BAR ASSOCIATION RELEASES ITS FIRST FORMAL OPINION ON THE USE OF GENERATIVE AI

The American Bar Association (ABA) has released Formal Opinion 512, providing guidance on the ethical use of generative AI (GAI) in legal practice. Lawyers must maintain competency, ensure client confidentiality & communicate effectively when using GAI.

The opinion stresses the importance of independent verification of AI-generated outputs and advises lawyers to stay informed about technological advancements. This guidance aims to balance the integration of AI tools with the upholding of professional standards. (29 July, 2024) [Click here to access the News Blog](#)
